

White Paper: Storybook Meme Coin (\$BOOK)

Eye Q, Jamaal Zyad, Tokenomics
www.storybookcoin.com

Abstract

Storybook Meme Coin (\$BOOK) is a unique cryptocurrency that empowers its holders to actively participate in the creation and curation of literary content. By holding \$BOOK tokens, members gain governance rights within the Storybook community, allowing them to pitch ideas, provide input, and recommend notable reads. The Storybook ecosystem transforms engaged members into storybook characters, offers opportunities for publication, and keeps members updated with the latest fiction and audiobooks produced by Eye Q. This white paper outlines the vision, structure, and functionality of Storybook Meme Coin.

Introduction

The digital age has revolutionized the way we create, share, and consume literature. However, the traditional publishing industry remains relatively centralized, limiting the opportunities for writers and readers to collaborate meaningfully. Storybook Meme Coin aims to disrupt this model by leveraging blockchain technology to create a decentralized literary community where governance and creative contributions are driven by token holders.

Vision

Our vision is to democratize the literary creation process, making it more inclusive and engaging. We aim to build a community where every member can contribute to and influence the literary content produced, ensuring a diverse and rich collection of stories.

Tokenomics

BOOK Token

Storybook Meme Coin (\$BOOK) launch model ensures that most tokens are available to the community from the start. The token distribution is as follows:

- **Total Supply:** 1,000,000,000 \$BOOKS

- **Max Supply:** 1,000,000,000 \$BOOKS
- **Token Distribution:**
 - **General Liquidity Pool:** 78%
 - **Team:** 12% (Lock for 6 months)
 - **Marketing:** 8%
 - **Investors:** 2%
- **Buy Tax:** 2%
- **Sell Tax:** 2%
- **Buy Back:** 0%

This distribution model ensures that the vast majority of \$BOOK tokens are accessible to the community, promoting a fair and decentralized ecosystem. The allocation for the team, marketing, and investors is minimal, ensuring that the primary focus remains on the community and its governance.

Governance

\$BOOK token holders have the following governance rights:

- **Pitch Ideas:** Members can propose new story ideas, genres, and themes for future publications.
- **Provide Input:** Participate in voting and discussions about ongoing projects, including story development, character arcs, and plot twists.
- **Recommend Reads:** Suggest and vote on books and audiobooks to be featured or promoted within the community.

Character Integration

Engaged members with a considerable number of \$BOOK tokens can become characters in Storybook's literary works. This feature encourages active participation and adds a personal touch to the stories produced, fostering a deeper connection between the community and the content.

Publishing Opportunities

Members can submit their stories for consideration and potential publication. This democratizes the publishing process, allowing talented writers to gain exposure and recognition based on the community's support and feedback.

Updates and Content

Storybook members receive regular updates on new fiction and audiobooks produced by Eye Q, ensuring they are always at the forefront of the latest literary trends and releases.

Membership

Becoming a member of the Storybook community is simple:

1. **Hold \$BOOK Tokens:** Acquire and hold a certain number of \$BOOK tokens.
2. **Join the Community:** Follow us on Telegram to stay updated and participate in discussions and governance activities.

Roadmap

PHASE 1: LIFT OFF

- **Launch \$BOOK on Gas-Pump**
 - Kickstart the project with the launch of \$BOOK on the Gas-Pump platform.
- **Grow the Community**
 - Build a vibrant community on Twitter and Telegram.
- **Create Storybook Characters**
 - Develop unique Storybook characters for investors who hold \$BOOK tokens.
- **Secure Listings**
 - Obtain listings on major platforms like CoinMarketCap and CoinGecko.
- **Complete THE DOCUMENT Anthology**
 - Finalize and publish the first anthology of stories titled "THE DOCUMENT."
- **Begin Manuscript Submission for Round 1**
 - Commence with the first round of short stories for nomination.
- **Launch Ai Character-Generator Bot**
 - Create a Storybook bot which gives members the ability to make characters in storybook art style for ranking purposes.

PHASE 2: BRING THE FUN

- **Get a CEX Listing**
 - Secure a listing on a centralized exchange (CEX) to increase accessibility.
- **Complete Graphic Novel**
 - Complete and release the graphic novel "TRAPPED ON THE OTHER SIDE."

- **Begin Manuscript Submission Round 2**
 - Winners from Round 1 enter the semi-final round.
- **Movie Script Writing**
 - Begin production on a full-length movie script.
- **Select Top Authors from Submissions Rounds**
 - Finalist names and stories get featured in Storybook journal.

PHASE 3: MOON LANDING

- **Community-Driven Journal**
 - Launch a community-driven Storybook journal.
- **Publish First Novel**
 - Release Storybook's first full-length novel.
- **Green Light Movie Script**
 - Get the full-length movie script approved for production.
- **Open Storybook's Quiet Place Cafe**
 - Establish a physical location for Storybook's Quiet Place Cafe.

Conclusion

Storybook Meme Coin (\$BOOK) is more than just a cryptocurrency; it is a movement towards a more inclusive, democratic, and engaging literary world. By empowering token holders with governance rights and integrating them into the creative process, Storybook aims to revolutionize how stories are created, shared, and enjoyed. Join us on this journey and become a part of the future of literature.
